Hi all!

The UH System is implementing a new Course Evaluation System (CES) that will provide online course evaluations for all course sections offered in a semester. I am attaching the memo from President Lassner regarding the implementation and an update of the planned implementation.

Leanne Riseley and Adam Halemano are the campus coordinators for CES. They have created a [website](#) to house information on CES and current implementation plans.

If you are currently using eCAFE, you should be able to easily copy/paste your questions to the new CES system. While eCAFE will be archived as of October 1, the question set will continue to be accessible as will your previous eCAFE survey results.

If you have not used eCAFE, I highly recommend you continue to use hard copy student evaluation forms this fall semester while we work on a transition plan to CES. All faculty are expected to be using CES by Fall 2020 as the hard copy forms will no longer be available.

Starting Fall 2018, all students will receive the one question selected by faculty (*How would you rate the overall quality of this course?*) for all course sections.

Thank you,
Della
