MEMORANDUM

To: Manuel J. Cabral  
   Chancellor

From: Michael H. Pecok  
   Vice Chancellor for Academic Affairs

RE: Curriculum Changes to Ensure Catalog Currency

Due to changes in courses approved for the General Education Foundation Core and Diversification categories, some courses are not reflected correctly in the specific programs in Curriculum Central. The following changes in the catalog for 2016-2017 have been made. Program Coordinators will be notified so program modifications can be submitted in the next academic year.

- BUSN 279 was approved as a Foundations (FGB) course. It has been added to all of the AA programs, the ASNS and the ASPBTA since they require foundations courses and they are transfer programs.
- THEA 101 has been removed as FGB and is now approved as DA in all AA programs and the ASNS degree.
- Any course that has been deleted as an approved diversification course has been updated in the program lists. Courses deleted include POLS 130, SCI 107, ZOOL 240, and ZOOL 241.
- Also, in accordance with a memo written last year, any course that is no longer taught at Leeward has been deleted, including references to SP 200 and ESL 100.
- HWST 270 moved from DH to DL for the current academic year, so it has been deleted from the DH list for the ASNS degree.

Approved/Disapproved:
