Enabling an approver in workflow the ability to edit a proposal in KSCM

1. Login to KSCM
2. Navigate to Workflow
3. Select the correct node you wish to change
4. Select the role within the node.
5. Scroll down until you see the options. In Edit Rules enable “Users can edit the proposal at this step”. This will allow this node to edit the proposal if needed. This might need to be done in both Course and Program workflows.
