

Faculty Senate Report - February 18, 2015

Ad-hoc Website Committee

We have worked with Randy to update the Faculty Senate website permissions to include Michael Cawdery (New Senate Secretary) as a contributor. It is the belief of the committee that the FS Secretary is instrumental in the process of maintaining a website with current and useful information.

I am in contact with Michael to schedule a meeting with him to show him how the upload process works and to use the established file naming convention.
