V. Campus Report

A. Accreditation Update (Donna Matsumoto, Institutional Self Evaluation Chair and Accreditation Liaison Officer [ALO])

**Accreditation team leader (ALO)** Donna Matsumoto reported on the campus' progress leading up to the ACCJC site visit to take place in one year (October 2012), once our evaluation report has been reviewed.

SUGGESTED REVISION:

V. Campus Report

A. Accreditation Update (Donna Matsumoto, Institutional Self Evaluation Chair and Accreditation Liaison Officer [ALO])

**Accreditation team leader / Accreditation Liaison Officer (ALO)** Donna Matsumoto reported on the campus' progress leading up to the ACCJC site visit to take place in one year (October 2012), once our evaluation report has been reviewed.
**ORIGINAL:**

**Motion 11-34 (Hochstein/Ono):** An Ad Hoc committee should be formed to review the student evaluation process.

**Discussion:**

Sen. Rojas says one main concern is that while student evaluations are not technically included (as "required") in the tenure and promotion guidelines, it is possible that decisions are being made based on student evaluation results. The "student evaluation" is also a particularly difficult section to create for tenure/promotion documents.

Sen. Rojas asked to whom can we go to and find that information, and to determine whether performance on student evaluations is being used to evaluate tenure and promotion applicants.

**SUGGESTED REVISION:**

**Motion 11-34 (Hochstein/Ono):** An Ad Hoc committee should be formed to review the student evaluation process.

**Discussion:**

Sen. Rojas says one main concern is that while student evaluations are not technically included (as "required") in the tenure and promotion guidelines, it is possible that decisions are being made based on student evaluation results. The "student evaluation" is also a particularly difficult section to create for tenure/promotion documents.

Sen. Rojas asked to whom can we go to and find that information, and to determine whether performance on student evaluations is being used to evaluate tenure and promotion applicants?
Sen. Rojas mentioned that she became aware of these student evaluation issues when she became coordinator for her discipline and realized that different divisions seem to have different student evaluation policies. She also became aware of faculty members being given notice that they were to be receiving statistics regarding their students’ success rates, which led to the question, "How is this information being used by administration and TPRCs?

Sen. Rojas mentioned that she became aware of these student evaluation issues when she became coordinator for her discipline and realized that different people seem to have different views on the implementation and use of student evaluations and their inclusion in contract renewals/tenure and promotion documents. She also became aware of faculty members being given notice that they were to be receiving statistics regarding their students’ success rates, which led to the question, "How is all this information being used by administration and TPRCs?"
