

Course Evaluation Feedback Report from CCCFSC

2/21/20

As a part of a systemwide initiative, the Course Evaluation System (CES) was developed to provide the capacity for all courses to be evaluated. As a part of the process, the faculty had asked for the following:

1. Accurate computing of course averages. Currently, and to the knowledge of the faculty, CES isn't correctly computing N/A responses into averages. N/A responses are being assigned a five-point value in calculating the mean value, which makes it meaningless to compare the average rating. For example, the figure below, taken from a Math class from Fall 2018, shows that 16 students took the survey for the class. The mean was calculated as follows: $(0 \times 1 + 0 \times 2 + 5 \times 3 + 4 \times 4 + 10 \times 5 + 1) / 16 = 60 / 16 = 3.75$. To find the meaningful mean, the sample pool for N/A option should be omitted, in which case the mean for the class will be 3.67 [e.g. $(0 \times 1 + 0 \times 2 + 5 \times 3 + 4 \times 10) / 15$] and the mean for the college/department will be 3.64.

4. The instructor answered questions clearly.									
	Mean	N Size	Std Dev		Strongly Disagree	Disagree	Agree	Strongly Agree	N/A
Windward Community College	3.7	440	0.71	Freq(%)	0 (1%)	15 (3%)	96 (22%)	303 (69%)	18 (4%)
Instructional	3.7	440	0.71	Freq(%)	0 (1%)	15 (3%)	96 (22%)	303 (69%)	18 (4%)
Liberal Arts	3.7	440	0.71	Freq(%)	0 (1%)	15 (3%)	96 (22%)	303 (69%)	18 (4%)
Mathematics & Business	3.69	433	0.71	Freq(%)	0 (1%)	15 (3%)	95 (22%)	298 (69%)	17 (4%)
CRN (sec) 84413 (0)	3.75	16	0.58	Freq(%)	0 (0%)	0 (0%)	5 (31%)	10 (63%)	1 (6%)

2. Courses with multiple teachers. CES reporting doesn't work well for courses with multiple teachers. The CES is only associated with one CRN.
3. Courses with the late addition of a lecturer. Currently, some courses whose instructor changes at the beginning of the semester are still being associated with the "original" instructor.
4. One of the selling points of CES was its potential for reporting. This reporting was supposed to benefit faculty who are going through tenure and promotion. It would be ideal if reporting could include totals and averages across multiple terms. It should be possible to download all data as a single spreadsheet file, formatted in a way that makes data analysis possible.
5. General background data about students needed gender, ethnicity, etc.

Thank you for your concern in these matters.

1. Currently, the CES survey results go back to the instructor, along with aggregated student demographic data (gender, race, and year in school). ITS added those fields from Banner to "help" instructors but at least one faculty on our campus has objected to the inclusion of such data citing the possibility of bias. The FS Evaluation Committee has been discussing this for a few months now but hasn't reached any conclusion. ITS is willing to remove the demographic data from Kapiolani's CES results.
2. How should faculty working on CR/TP dossier compare student evaluations from the years with different survey questions? Should there be a recommendation of factors or something similar, or is this something we should leave up to each faculty? I know that there will be a number of faculty asking for guidance on this.
