SUBJECT: Written Feedback and Admin Response to Senate's Actions

Thank you for the June 25th memo and email acknowledging the administration's response to Faculty Senate's Resolution 19.1 and 19.2.

I appreciate your commitment to the ongoing collegial relationship between the Faculty Senate and Administration. Mark and I look forward to engaging with Faculty Senate during the Fall 2020 semester so we can dive into the details of FS Resolution 19.1, dealing with Facilities Use Procedures and Processes.

Fall semester is also when I hope to have a more definitive answer about when we can resume recruitment and selection for our Vice Chancellor for Academic Affairs. As I've previously confirmed, Faculty Senate will be actively involved in the search.

As we prepare for a new academic year, I'm sure that the Administration and Faculty Senate will engage in open, timely and productive communication in writing. It's reassuring to know that we are all committed to transparency, clarity, and accountability.
