2017/18 Academic Year Faculty Committee Report

The Faculty Committee was initially asked to examine the differences between divisions on the tenure review process and DPC training. A dozen faculty members volunteered to participate on this committee, but the issue brought up was tabled as the college has several measures in place already, including several tenure/promotion workshops each school year, as well as DPC training and a host of other activities available for faculty. In addition there are Power Mentoring, Mid-Term Assessment and Teaching Squares opportunities faculty can utilize. I was asked to not examine the issue any further and no other issues were brought to the faculty committee to examine and/or act upon.
