Chairperson, Curriculum Committee

RE: Request to Fix Fall 2018 Approved ASC-MOP Program

The Star team asked for some clarification about the ASC-MOP Program. We worked with the proposer to gain more information and answer the Star Team's questions.

Currently field 3.3 says the following:

A. Minimum of one of the following two marine survey courses:

OCN 201 3 cr Science of the Sea

OCN 201L 1 cr Science of the Sea Lab

ZOOL 200 3 cr Intro to Marine Biology

ZOOL 200L 1 cr Intro to Marine Biology Lab

I would like to update this to include the number of credits:

A. Minimum of one of the following two marine survey courses (4 credits):

OCN 201 3 cr Science of the Sea

OCN 201L 1 cr Science of the Sea Lab

ZOOL 200 3 cr Intro to Marine Biology

ZOOL 200L 1 cr Intro to Marine Biology Lab

I would also like to delete the following lines in this field as the proposer thought they were deleted:

(Possible option 1): Two 4-credit courses that combine 3-credit lecture and 1-credit lab OR a 3-credit lecture course with its accompanying 1-credit lab, MOP Seminar, AND a 3-credit MOP Skill Project. = 12 credits

(Possible option 2): Three 3-credit courses, MOP Seminar, and a 2-credit MOP Skill Project. = 12 credits
