

## **Campus Supported Software.**

The campus supported software is determined by the following process.

1. The software requirements of our campus are first determined by the job functions of the staff and curriculum requirements of the instructional programs. An example of this would be Microsoft Office suite. It is a requirement for the Business Technology and Information and Computer Science Department. It is also a requirement for the clerical and support staff to accomplish their day-to-day duties.
2. A list is compiled of all the software applications, utilities and operating systems used on campus. This list is reviewed and the software that is used on a campus wide level (not specific to an individual program or area), are identified.
3. The software identified as campus wide usage is what is designated as the "Campus Supported Software".

The designation of Campus Supported Software is important for two primary reasons.

1. The purchase of this software is paid for by the Technology Fund and is coordinated through the Information Technology Group. All faculty and staff are eligible to obtain a license copy on their work<sup>1</sup> computers. A copy of this licensed software may be used at home. A full description of the licensing agreement under which this can be done can be found at <http://emedia.leeward.hawaii.edu/itg/docs/Open6WAHAccept.pdf>
2. The use of this software is fully supported by the Information Technology Group. The installation and resolution of problems or assistance in their use can be requested by contacting the Help Desk at x271.

The following page contains a complete list of the Campus Supported Software. This list is subject to change and should be reviewed periodically.

---

<sup>1</sup> Work computer is defined as a computer purchased through campus funds or fund obtained in a grant awarded to a LCC faculty or staff to support campus business.

## **PC software Applications**

Microsoft Office 2003 and 2007

Word

Excel

Access

PowerPoint

Outlook

Publisher

Front Page 2003

Microsoft Outlook Express

Eudora 5.21 – 6.2.5

Internet Explorer 6.0 and 7.0 (Best Effort)

Firefox 2.0.0.17

Firefox 3.0.3 (Best Effort)

Safari for Windows

SSH 3.2.9

Adobe Acrobat Reader 8.0 and 9.0

RealPlayer 11

Quicktime 7.5

SpySweeper

Thunderbird

McAfee VirusScan 8.5i for XP and Vista

## **Operating Systems**

Windows XP Professional and

Vista(Best Effort)

## **Macintosh software Applications**

Microsoft Office Standard 2004 and  
2008

Word

Excel

PowerPoint

Entourage

Eudora 5.0 – 5.1 and 6.2.4

Firefox 2.0.0.17

Firefox 3.0.3 (Best Effort)

Safari 3.0.4

MacSSH

Adobe Acrobat Reader 8.0 and 9.0

Fugu (Mac OS X)

Quicktime 7.5

Stuffit Expander

Thunderbird 1.5 – 2.0

Virex 7.7 (Mac OS X 10.2.6 – 10.3.9)

VirusScan 8.5 (Mac OS X 10.4)

VirusScan 8.6 (Mac OS X 10.5)

iTerm

## **Operating Systems**

Mac OS X
