In Fall 2016 Jeremiah and Lexer formed the committee to initiate the discussion regarding potential alternative scheduling options for courses. The committee informed their discipline coordinators within their divisions to provide their input on the google survey that we sent out.

Results can be found here: [Discipline Coordinators Survey Results](#)

Based on the results, we moved forward with sharing the information with Della, who was supportive in presenting the information to the Division Chairs to gain their support. Della and Jeremiah presented the information to the Division Chairs in Spring 2017. Division chairs support the idea of a flexible schedule (with the exception of PAT, the classes for which require special scheduling considerations). Following this, Della created a draft schedule of what the new classroom schedules could look like, reinforcing that space is not an issue.

Jeremiah and Lexer will be sending a survey to the faculty.
