Dear ACCFSC Members,

In follow-up to the previous email, VP Syrmos asked that the following message be sent to the ACCFSC:

The Office of the Vice President for Research and Innovation's reorganization proposal is a System level reorganization that does not directly affect the campuses. We are proposing to make internal adjustments to our office organizational structure since we have not undergone a comprehensive reorganization that truly reflects its current structure, operations and services. Our goal is to develop and implement an organizational structure to establish clear lines of authority and responsibility, minimize duplication of effort, and improve efficiencies and effectiveness of our services provided to the research community. We would like to include the faculty senates in the review of our proposed reorganization, and kindly ask that any comments be provided by February 15, 2017. I am more than happy to meet with the faculty senates in January when everyone is back from the holidays to answer any questions.

Happy Holidays!

Regards,

Vassilis
